technology company**

ULTIMATE LISTENING SYSTEM

Real-time listening across every digital touchpoint. Collect solicited and unsolicited customer signals in a non-disruptive manner, from the right customers, at the right time

PREDICTIVE INTELLIGENCE AND ANALYTICS

Instantly surface experience gaps and key business drivers. Use AI to find insights hidden deep in open-text responses with sentiment scores, trends, and automated alerts

ACTIONS AND WORKFLOWS

Embed insights across digital teams and make CX part of their daily routine through integration with the tools they already use
